#### The Suds Platform

The motive which caused the Democrats at Saratoga to put a beer plank in their platform was desperation, Of course they did not dare to go the whole wet hog. Indeed, they left out Britain in reply to her note propos- leftargy among Democrats of Irish to escape, and this is what sticks in the appeal for the "light wines" which have usually been coupled with beer. The only moisture held to the lips of the thirsty voter is beer of 2.75 kick power. As for the platform's recommendation that in future the Federal Constitution be amended by popular referendum, if that be intended as a play to the liquor interests not even the least intelligent and most optimistic saloon keeper will be deceived by it.

What MURPHY and the rest of the Democratic bosses in this State wished to accomplish was to escape from the San Francisco bught. They know how the Wilson covenant is regarded by the voters of New York in general and particularly many Democratic voters. Let's get away from horizontal visions and aerial voices, the head, and give 'em a bottle of beer. With the aid of Governor SMITH, whose record against bone dry prohibition is open and consistent. 2.75 beer became the putative issue of the New York Democrats.

It is the Suds Platform, as LUNK called it. It will probably estrange from the Democratic party in this State whatever bone dry followers it may have had. It may hold in the cities a few thousand Democratic votes which otherwise would slip away because of Wilsonism.

The course of the Democrats at shiver. On prohibition he is for against Russia and the Ukraine."
